970-259-9234, ext. 107

State Level:

Courtney.Butler@colostate.edu

(970) 491-7716 (office)

Meeting Notes

1. **We have a couple of exciting things planned for the day of the Fair:**
 - a. Admission events- tours of the science buildings on campus, FLC student panel, tours of other facilities on campus
 - b. Food/bev- participants will be able to go through the dining hall for lunch, judges and volunteers will be catered through the college for breakfast and lunch
 - c. Career Pathways Opportunity- Planning on having regionally local organizations to table in the lobby of the event. **A call for any science based organizations that want to tabel to reach out/send me over contact information of orgs. you have in mind.**
 2. **Parking**
 - a. As of right now, school buses/vas will be able to park in the stadium lot, free of charge. However, all other vehicles have to pay for a parking pass for the day.
 - b. Finding a free option is currently in the works, and we will keep everyone updated on the parking status
 3. **Registration**
 - a. New "preliminary registration" google forms signup being added to the Science Fair website
 - b. Even if students don't have projects complete enough to do the official registration form, please complete the preliminary form so we can start to gather numbers and project topics for the event
 4. **Future (hopefully by next year)**
 - a. In school Science Fair Club, for schools that feel this would be a benefit to them
 - b. This would be either a staff member from The Powerhouse, or a community member that steps up, providing guidance on experimental design, paperwork, continued research, etc.
-
