

Job Title: Part Time STEM Educator
Reports To - Director of Education
Hours and Term: Part Time, Non-Exempt
Start Date: February 23rd, 2026
Compensation: \$20.00 an hour
Travel: 80%
Benefits: Accrued sick leave

Summary:

The Powerhouse prides itself on hands-on, engaging science exploration for all ages. We are looking for an enthusiastic educator to join our Education Team to support afterschool programming and field trips.

Roles and Responsibilities:

- Deliver quality, hands-on lessons from an activity and curriculum guide for our afterschool programming
- Be able to help facilitate exciting and engaging Field Trip experiences for students
- Connect children to the scientific concepts explored in each lesson or activity
- Provide accurate, scientifically supported information on scientific themes and topics
- Work with the Education Team to tailor STEM lessons to you and your student needs, as well as any content clarification
- Maintain cleanliness of the classroom space
- Provide feedback on activities for further improvement in future use
- Ensure a safe learning environment for participation for children primarily in K-5, grouped by age
- Work with the Director of Education to address behavioral needs

Requirements:

- Expected weekly commitment is 5-10 hours per week
- Experience working with children, preferably in an educational or enrichment setting
- Demonstrated ability in classroom management
- Demonstrated ability to work as a flexible member of the education team
- Working knowledge of scientific content
- Ability to research scientific content to provide accurate information
- Commitment to diversity, equality, and inclusion in education
- Possession of a valid driver's license and clean driving record and ability to pass a background check
- Willingness to drive a 12 passenger van
- Willingness to use personal vehicle to drive between site locations with mileage reimbursement
- Have a love of science & children!
